Craig Recupero

CRPM Consulting

26 Chestnut Ridge Road, #139

Montvale, NJ 07645

Dear Craig:

I want to give you some feedback on the outstanding contributions that you made to Ajilon, in the Real Estate/Construction Build-Out and Overall Project Management, while I was President of the organization.

Your detailed style and streamline/standardization approach made a huge and positive impact in getting our locations leased, re-branded and built-out-with minimum stress from our field personnel and enjoying maximum efficiencies. I was most impressed with both your attention to detail and incredible interpersonal skills!

As I previously commented, you took this entire area to a higher level. As you know, this was a major initiative for Ajilon and you made reaching our field and corporate goals much more stress free and enabled our staff to concentrate on core issues and not Real Estate or construction issues that you and your team handled flawlessly.

I would highly recommend CRPM to anyone interested in having their projects handled by a true professional and am happy to speak with anyone who wants to learn more about your contributions.

You can trust that I, too, will rely on CRPM in any of my future endeavors.

Best of luck,

Neil Lebovits
